

The Platinum World LLC is better known as one of the leading importers of Nitrile Gloves & other PPE products into the US, Europe and India. Platinum Medi, fully owned by the Platinum world LLC is a business vertical that has been created to meet the Medical needs of our clients. As we all know, India and many other parts of the world have been ravaged by the effects of Covid-19 & urgently need a plethora of medical products and devices to contain the spread.

Keeping in line with our competitive prices & high quality standards, we are pleased to offer you Oxygen Concentrators which have been tried and tested for best results. We have also tied in local logistics partners so your loved ones can receive their equipment, delivered right to their homes.

Assured  
Quality

Honest  
Pricing

Timely  
Delivery

## Committed to saving lives by supplying quality products!

### JAY 5

Jay 5 are highly efficient, Latest technology innovative oxygen concentrator, designed for highest performance and distinctive features like uninterrupted working system, low noise production ability, high performance level, easy transportation facility & energy efficient mechanism. It has a separate Nebulizer port.

Available in size variant of 5L, to suit the needs of all sorts of medical & homecare situations.

Specifications	
Rated Voltage	220V ± 22V 50Hz
Product Size	340 x 320 x 530 (mm)
Input Power	<420VA
Output Pressure	>100kPa
Oxygen Concentrations	90% - 96%
Oxygen Flow Rate	1-5L
Weight	About 20 kg
Size of the noise	<608d
Oxygen Generating Principle	Molecular sieve pressure swing absorption

### OWGEL 5 & 10

These oxygen concentrators are designed using " German Technology " to provide supplementary oxygen to patients who either have pre existing medical conditions or have requirements for supplementary oxygen.

Both model deliver high level of oxygen via cannula to channelise oxygen while the 5L model suited for home use and 10 L for medical/commercial use.

Specifications	
Flow Specifications Tool	0LPM - 5LPM, 10LPM (Dual 5 LPM each)
Oxygen Concentration	93% ± 3% (5L/min), 93% ± 3%
Input Power	350VA, 750 Watts
Average Noise Level	<50dB(A), <60dB(A)
Dimensions (mm)	340*300*650 mm, 390*350*720 mm
Weight	19kg, 29.5kg
Warranty	2 years

### SAM 5A & SAM 10A

SAM 5A & SAM 10A are highly efficient, Latest technology innovative oxygen concentrator, designed for highest performance and distinctive features like uninterrupted working system, low noise production ability, high performance level, easy transportation facility & energy efficient mechanism.

Available in two size variants of 5L & 10L, to suit the needs of all sorts of medical & homecare situations.

Specifications	SAM 5A Specifications	SAM 10A Specifications
Flow Rate	0-5 LPM	0-10 LPM
Purity	93% (+3%)	93% (3+%)
Outlet Pressure	0.04-0.07 MPA (6-10 PSI)	0.04-0.07 MPA (6-10 PSI)
Sound Level	<50db	<50db
Power Consumption	<550W	<880W
LCD Display	Switch Times Operating Pressure Present Working Time Accumulated Working Time Presetting time: 10 min to 40 hrs	Switch Times Operating Pressure Present Working Time Accumulated Working Time Presetting time: 10 min to 40 hrs
Alarm	Power Failure Alarm High & Low Pressure Alarm	Power Failure Alarm High & Low Pressure Alarm
Weight	26 kg	27 kg
Dimension	365 x 375 x 600 mm	365 x 375 x 600 mm

### YUWELL 5

Yuwell 5 are highly efficient, Latest technology innovative oxygen concentrator, designed for highest performance and distinctive features like uninterrupted working system, low noise production ability, high performance level, easy transportation facility & energy efficient mechanism.

Available in size variant of 5L, to suit the needs of all sorts of medical & homecare situations.

Specifications	
Flow Rate	0-5LPM
Oxygen Concentration	93% ± 3%
Maximum Outlet Pressure	45kPa ± 4.5kPa (6.52psi ± 0.65psi)
Pressure Relief Mechanism Operational at Altitude	250kPa ± 25kPa (36.25psi ± 3.63psi) Upto 1828 mtrs above sea level without degradation of concentration levels. From 1828 mtrs to 4000 mtrs below 90% efficiency.
Sound Level	Front side 48dB(A)(average), Whole unit 52dB(A)
Maximum Nebulizing Rate	≥0.15mL/min
Power Supply	AC120V ± 10%, AC220V ± 10%, AC230V ± 10%, 50Hz, 60Hz, 3.6amps(AC120V), 1.8amps(AC220V-240V)
Input Power	400VA
Weight	26 kg
Dimension	H46.6cm(18.3") x W39cm(15.4") x D24.5cm(9.6")
Minimum Operating Time	30 min

### HAIER CP 101

- High concentration oxygen generation healthy life.
- High concentration oxygen generation, oxygen concentration above 90%.
- Intelligent timing, set oxygen absorption time according to demand.
- High quality compressor, stable operation.
- High quality molecular sieve, efficient oxygen separation.
- 1 year warranty with after sales support.
- High oxygen generation above 90% at all flow levels.

Specifications	
Product Model	CP 101
Purity	0-10L/Min, 93±3%
Voltage Frequency	220V 50Hz
Weight	20.5 kg
Flow	0-10L/Min
Noise	<55DB(A)
Power Consumption	700VA
Display Mode	LED
